Total	3293 43	1814

Rise in Consumer Price index

1034. SHRI KALPNATH RAI: Will the PRIME MINISTER be pleased to state;

(a) what was the consumer price index towards the end of the years 1984, 1985 and 1986;

(b) whether it is a fact that "there was a rising trend in the index during these years; and

(c) if so, what are the reasons for the same and how it is proposed to keep price rise under check?

THE MINISTER OF STATE OF THE MINISTRY OF PETROLEUM AND NATURAL GAS AND MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI BRAHM DUTT): (a) and (b) The All India Consumer Price Index for industrial Workers (CPI) (1960—100) was 588, 630 and 688 towards the end of 1984, 1985 and 1986 respectively.

(c) Movements in the CPI ire caused by a variety of factors affecting demand and supply position of various consumption items. The domestic availability of many items of daily consumption was adversely affected by poor weather for three years in succession. Government, however, closely monitors the behaviour of prices and has "taken various steps from time to time, both on the demand and supply side, to contain the rise in prices. The measures taken include strengthening of the public distribution system for essential commodities, supply of foodgrains at subsidised rates to weaker sections under gpecial schemes'
enforcement of fiscal discipline and control over aggregate liquidity in the system.
